

Name of the Practice: Departmental Library

Objectives of the Practice

1. To adopt value based and practical approach to the curriculum.
2. To acquire disciplinary works, content which faculties cannot fund by themselves.
3. To make easy availability of books to the students of concerned subject.
4. To enrich the students, scholars and faculties in the research activities and paper presentations.

The Context

Department is equipped with Departmental Library along with the Digital Library. This contains the book required to the student of each department. The primary objective of a Departmental Library is to provide the right information at the right time in the right form to is uses. To meet this objective of Departmental Library have to provide access to information, irrespective of their form, format and location.

The Practice

Name of the Department	Number of Books available in the Departmental Library
Department of Computer Sciences	60

Evidence of Success

Number of benefices indicates the success of the practice:

Name of the Department	Number of Books Issued by Students throughout the session
Department of Computer Sciences	81

Problems encountered and resources required:

1. Non availability of updated subject information like Machine Learning, Data Mining, Neural Network etc.
2. Over dependency of short guides and solved editions by the students.
3. Some students don't return the books timely, causing delay in use for others.
