

7.2.2.1 Title of the practice:

Providing Educational Help to Students and support to staff

7.2.2.2 Objectives of the Practice

1. To provide value based motivational system for students so that they may continue their studies during the COVID-19 pandemic time.
2. To help students in growing their potential in Academic dimensions.
3. To make Education easier to access.
4. To support the students who need financial support for studies.
5. To protect the educational interests of Christian Minority students.
6. To provide fee concession to staff ward due to COVID-19 circumstances.

7.2.2.3 The context

St. Vincent Pallotti College views its Mission in reaching out to the most under privileged strata of the society.

A financial help in education can give a pat on the back to the students. It gives him the confidence to pursue other goals.

Though our students receive scholarship from government, still we find it insufficient as many of our students are in need of the financial support specially in this difficult time of COVID-19 and seek motivation in order to perform in fullest possibilities. So, our institution has recognised students from all the departments and provided financial help to them. The staff members who have admitted their wards in the college also have been considered for the fee concession.

7.2.2.4 The Practice

The financial help in COVID-19 period by the College is in three categories. They are as follows:

1. Educational Help: The students identified by the management in this category and provided with the educational help of Rs. 10000.
2. Staff Ward Fee Concession: The management also considered the staff members who have their wards studying in college. The Fee Concession has been done on individual basis.
3. Christian Minority: Being a Minority Institution, the College always guards the benefits of Christian Minorities. The Christian students who fulfil the norms are encouraged by providing monetary support.

7.2.2.5 Evidence of Success

The COVID-19 period has been the most tough times for humanity. The College management took a very genuine step to support their students. All the students who have been provided

with help are regular in their studies and could score good marks in the semester and yearly examinations.

7.2.2.6 Problems Encountered and Resources Required

The pandemic time has been a difficult period for the college as well. The College has to take sincere efforts to meet with the demands of the time. The arrangements of online classes the novel arrangements of infrastructural facilities were the part of these adaptations.

But college administration and management faced the scenario with great courage and achieved success in maintaining its set standards and norms.
