Write up of Aptitude Test

2020-21

Aptitude test, examination that attempts to determine and measure a person's ability to acquire, through future training, some specific set of skills (intellectual, motor, and so on). The tests assume that people differ in their special abilities and that these differences can be useful in predicting future achievements.

General, or multiple, aptitude tests are similar to intelligence tests in that they measure a broad spectrum of abilities (e.g., verbal comprehension, general reasoning, numerical operations, perceptual speed, or mechanical knowledge). Aptitude tests also have been developed to measure professional potential and special abilities. The Differential Aptitude Test (DAT) measures specific abilities such as clerical speed and mechanical reasoning as well as general academic ability.

On this context an aptitude test was conducted for the students on B.COM I, B.COM II, B.COM III, to check the differential ability of students. Total number of students participated in exam were 189. Due to pandemic the Aptitude Test, this year was conducted via GOOGLE form in online mode.

B.Ed. Semester- III

REPORT : ONLINE APTITUDE TEST

Topic: Teaching Aptitude Test

Organized on – 12/02/2021

Organized by – Department of Education

Department of education organized an online aptitude test for students of B.Ed. Semester-III. The topic of the aptitude test was chosen as the teaching aptitude. The students participated in online platform.

The objectives of the test were:

1. To investigate the level of teaching aptitude of B. Ed. Student - teacher.
2. To make the students aware about their strengths and weaknesses in professional area.
3. To motivate the students to develop the professional attributes and upgrade their skills.
4. To create a participative and developmental environment in classroom.

The test was a big success as it received the maximum participation. The test was followed-up by the discussion of student's performances and suggestion for further growth.

Aptitude test report

<div align="center">

St. Vincent Pallotti College, Raipur

Department of Computer Science

Session 2020-21

</div>

Name of Activity: "E-Aptitude Test"

Organized on: 29/07/2021

Organized by: Department of Computer Science

Students involved: BCA & PGDCA

As a student or even as a professional, we are bound to come across aptitude tests at some point. These tests basically determine the best career path for you depending on your skills and interests. They include many areas of assessment such as Verbal Reasoning, Numerical Reasoning, Abstract Reasoning and other such abilities. These tests have become really common these days, especially for students who are confused and undecided about their careers.

So, keeping this in mind Department of Computer Science organized an "E- Aptitude Test" for the students of BCA and PGDCA in virtual mode using Google Form. Time duration of 30 minutes was allotted to solve the test. The test was divided into three categories viz Reasoning, Quantitative and English, where each section contained 10 questions each of 1 mark.

Reasoning

Logical Reasoning is a part of almost all major Government exams conducted all over the country and is one of the most scoring sections as well. This section included questions related to Blood Relation, Coding-Decoding, Seating Arrangement, Alphanumeric Series etc.

English

This section included spelling, grammar, and ability to understand analogies. These questions appear in most general aptitude tests because employers usually want to know how well one can communicate.

Quantitative

This section included basic arithmetic, number sequences and simple mathematics. At management level, one will often be presented with charts and graphs that need to be interpreted. These questions appear in most general aptitude tests because employers usually want some indication of one's ability to use numbers even if this is not a major part of the job.

The test was totally based on exam pattern and 52 students responded very actively. Students came to know about their reasoning and logical ability. They were very happy for attending such useful activity.

St. VINCENT PALLOTTI COLLEGE, RAIPUR
Department of Computer Science
Session: 2020-21

Name of Activity: "Battle of the Brains" – Online Quiz Competition

Organized on: 17/10/2020

Organized by: Department of Computer Science

Mode: Virtual

Winners: Team Marvels

Besides the obvious academic benefits of expanding a student's knowledge and exploring new skills at an early age, quizzes redefine the education system in significant ways. This Quiz helped students identify what they know and what they don't know. The students then have a better idea of how well they are grasping the material, hopefully motivating them to study more and helping them allocate their study time effectively by focusing on the information that still needs more practice. The online Quiz competition organized by the Department of Computer Science consisted of 2 groups namely Team Marvels and Team Gems. The competition was conducted in 3 rounds. In round 1, general knowledge questions were asked to each team. Team Marvels led in round 1. In round 2, computer awareness questions were asked to each team. Team Gems led in round 2. Round 3 was face recognition round in which cropped images of actor/actress/legends were shown on the screen and the team has to guess the correct name. After the completion of round 3, team Marvels won the quiz competition.

Certificates were distributed to the winning team members.
