

### **7.2.2.1 Title of the practice:**

Teacher's Presentation

### **7.2.2.2 Objectives of the Practice**

1. To cultivate an atmosphere of sharing of knowledge among the Teachers.
2. To motivate them to update themselves endlessly that in turn leads to modernize the knowledge of the students.
3. To enhance the presentation skills.
4. To bring cohesiveness among the staff members.
5. To come up with some unique and new concepts so that it will be helpful to teachers of other streams.
6. To have plenty of interaction among all faculties and also to learn to give a lots of thought to their audio visual aids.
7. To facilitate learning and development among all.

### **7.2.2.3 The context**

St. Vincent Pallotti College has a number of departments having skilled and experienced faculties. The progressive culture of the college demands a continuous updation of information in various fields. To fulfil these requirements, College operates a unique approach to benefit the teachers and the students. It is known as 'Teacher's Presentation'. In this, teachers present those topics in which they are excellent and also have presented or written some research papers on the same. This methodology helps in developing some new insights into different commercial, technical, social, moral and cultural issues. The topic ranges from a vast variety for ex: topics like Perception to Communication barrier, Effectiveness of Yoga to Defence Mechanism, Green Computing and many more.

### **7.2.2.4 The Practice**

St.Vincent Pallotti College has a regular practice of conducting teacher's presentation session since 4 years mostly on week days. The conduction of teacher's presentation has been one of the best practices of the college and this practice has brought amazing results.

The concept of teacher's presentation was introduced because such presentations allow the educator, to let out their creativity through each relevant slide. Teachers must have impeccable presentation skills for piquing the interest of the audience, and this is why, more than ever, teachers from various departments present their topics from their streams and in the end of the session there are discussions on the same. The college devotes exclusively 2 hours for these sessions.

St. Vincent Pallotti College started an innovative practice of Teachers Presentation, wherein every teacher is provided with opportunity to write and present their paper in front of Pallotti team. To strengthen presentation skills, focus on improving skills in these three areas:

- Verbal and Non-Verbal Communication.
- Effective Use of the Chalkboard and Visual-Aids
- Effective Design and Meaningful Organization of Content.

“Effective lecturers combine the talents of scholar, writer, producer, comedian, showman, and teacher in ways that contribute to student learning.”

The success of a teaching session is dependent on multiple factors, including adequate instructor preparation, the balance of learners' needs with educational goals, active participant learning led by a skilled facilitator, and appropriate assessment of the session's educational outcomes. Faculty from education department gives presentation on teaching methodology which is also useful for other stream teachers to develop new pedagogy and teaching methods. The research cell of the college regulates the mechanism of ‘Teacher's Presentation’. In this practice two teachers present their topic with power point presentation or some audio-video display. The cell prepares the schedule of the presentations. Each teacher gets one chance in one academic session.

The presentation session helped the teachers in various ways. It brought together teachers of different streams with different points of views and each having some or the other new topics to be presented. All sessions indulged in discussions and ended in a concrete conclusion.

It was also planned to present the best paper and presentation in front of students and facilitate the concerned faculty. It is a very interactive session and a great practice that helps in up gradation of teachers and students. The teacher's presentation sessions were highly

effective. Many new ideas and concepts were introduced and presented in such a way that the entire faculty got engrossed. After the session Brainstorming was also done sometimes on any particular topics and healthy discussions were there to come to a conclusion.

Presentation skills can be defined as a set of abilities that enable an individual to interact with the audience; transmit the messages with clarity; engage the audience in the presentation; and interpret and understand the mindsets of the listeners. These skills refine the way one puts forward his messages and enhance his persuasive powers. Teaching field needs a good command over subject along with great Communication skill. Presentation helps to in build communication skills in every teacher and personal growth of them. In addition, it also grooms the personality of the presenter and elevates his levels of confidence.

The following criteria are kept in mind while selecting the topic of the presentation:

1. The topic is of interest and/or relevance and/or importance both to you and to your audience.
2. The content should be of manageable size, that does not exceed the time limit.
3. One must have a dynamite visual aid which will cement some aspect of the presentation in the minds of your audience members.
4. The topic lends itself to a relatively simple purpose statement, thesis statement and relatively simple organization.

The topic ranges from a vast variety like :Perception to Communication barrier, Effectiveness of Yoga to Defence Mechanism, Green Computing and many. Problems like absenteeism, organizational conflict, barriers in communication and how to overcome it are the topics which were discussed.

Teacher presentation is the best practice of our college. All the teachers are required to prepare a topic of their own choice and give presentations. they help to

- Establish one clear idea. Conventional wisdom of the past used to be about putting as much information and content into a **presentation** as possible. ...
- Start with a compelling hook. ...
- Prioritize—only put in what's important. ...
- Consider schema and background knowledge. ...

- With slides, less is **more**

#### **7.2.2.5 Evidence of Success**

The teacher's presentation sessions were highly effective. Many new ideas and concepts were introduced and presented in such a way that the entire faculty got engrossed. After the session, Brainstorming session also followed some times on particular topics and healthy discussions held to come to a conclusion.

#### **7.2.2.6 Problems encountered and resources required:**

As all things have their pros and cons therefore teacher's presentation session also encounter some problems. These problems were not major ones and got resolved immediately. Some problems that were encountered are:

- Time constraint: many times the topics were interesting and audience wanted to listen but due to the time limit the presentations were cut down short.
- Sometimes the subject and area chosen were not explained properly and audience couldn't relate to it.
- Faculties gave theoretical presentations and it was just reading from the slides which made the entire purpose of teacher's presentation in a haywire.
- Various other important and unavoidable activities of the colleges sometimes hampered the scheduling of the sessions.
- Some presentations were lengthy and hence the faculty could not pay attention.

**OVERALL REPORT**

Presentation skills can be defined as a set of abilities that enable an individual to interact with the audience; transmit the messages with clarity; engage the audience in the presentation; and interpret and understand the mindsets of the listeners. These skills refine the way you put forward your messages and enhance your persuasive powers. Teaching field needs a good command over subject along with great Communication skill. Presentation helps to in build communication skills in every teacher and personal growth of them. In addition, it also grooms the personality of the presenter and elevates his levels of confidence. St. Vincent Pallotti College has a regular practice of conducting teacher's presentation session since 4 years mostly on week days. Our college one of the best practice is conduction of teacher's presentation and this practice has brought amazing results. Teachers from various departments present their topics from their streams and in the end of the session there are discussions on the same. The college devotes exclusively 2 hours for these sessions. Faculty from education department gives presentation on teaching methodology which is also useful for other stream teachers to develop new pedagogy and teaching methods. Teachers who are skilled at communication, classroom management and appropriate discipline techniques create a positive learning environment. Although being well versed in your subject area is important, being able to communicate necessary skills and concepts in a way students can understand is crucial. Keeping all these points in view only teacher presentation session were started in the college and all teachers have greatly benefitted from it.

Problems like absenteeism, organizational conflict, barriers in communication and how to overcome it are the topics which require lots of discussion and brainstorming sessions. The faculty from all departments had a very active discussion on the topics and come to conclusion. Book reviews were also done by the teachers. They choose book of any choice and gave presentation on the same.

TEACHERS PRESENTATION REPORT

RESEARCH COMMITTEE

SESSION 2017-18

Teachers Presentation enable to better understand the traits of the audience. It helps to develop messages that can be better understood by target audience. The present era places great emphasis on good presentation skills. This is because they play an important role in convincing others . Internally, management with good presentation skills is better able to communicate the mission and vision of the organization to the employees.

Presentation skills are important to both individual success and organisation success. Presenting information clearly and effectively is a key skill to get your message or opinion across and, today, presentation skills are required in almost every field.

In St. Vincent Pallotti College we have a regular practice of Teachers Presentation in every session. It helps to get knowledge from different streams. Faculties from various Department upgrade everyone on some innovative ideas. This session Faculties of Various Department Presented their papers and enhanced the knowledge of others on different subjects. A Faculty from Department of Commerce and Management presented their paper on Goods and Service Tax, giving overview on how GST works and its procedural parts. Similarly Computer Department gave highlights Social Networking Analytics, Education Department Enriched the knowledge about Construction of Knowledge.

It was also planned to present the best paper and presentation in front of students and facilitate the concerned faculty. It was a very interactive session and a great practice that helps in upgradation of teachers and students.
