

ST. VINCENT PALLOTTI COLLEGE

LODHIPARA, KAPA, RAIPUR (C.G.)

“THE PALLOTTI BULLETIN”

Empowering Minds, Enriching Futures

As we celebrate another academic year, I am delighted to welcome you to the latest edition of our college newsletter. This publication is verification to the creativity, talent, and dedication of our students, faculty, and staff. As Principal, it is my pleasure to reflect on the progress we have made and the exciting opportunities that lie ahead.

Our college has always been committed to providing a holistic education that goes beyond the classroom. We strive to create an environment that fosters intellectual curiosity, creativity, and critical thinking. Our faculty members are not just teachers, but mentors who guide and support our students on their academic journey. Our infrastructure, high-tech classrooms, cutting-edge technology, and innovative pedagogical approaches ensure that our students are equipped with the skills and knowledge required to succeed in an ever-changing world.

Our college is more than just a place of education – it is a community that values diversity, inclusivity, and social responsibility. We believe that education should empower individuals to make a positive impact on society. Our students are encouraged to participate in extracurricular activities, community service, and social initiatives that help them develop essential life skills, such as leadership, teamwork, and communication. As we look to the future, we are excited to introduce new initiatives and programs that will further enhance our students' learning experience. We are committed to staying at the forefront of educational innovation, ensuring that our students are prepared to thrive in an increasingly complex world.

I would like to take this opportunity to express my gratitude to our students, faculty, staff, and alumni for their hard work, dedication, and passion. Your contributions have made our college a vibrant and dynamic community, and I am honoured to be a part of it.

In closing, I invite you to explore the pages of this magazine, which showcase the achievements, talents, and stories of our college community. I hope that you will be inspired by the creativity, enthusiasm, and commitment that define our institution.

- Dr. Kuldeep Dubey, Principal

Dear Readers,

It gives me great pleasure to introduce **THE PALLOTTI BULLETIN**, our College Magazine, which captures the vibrant academic and co-curricular life at **St. Vincent Pallotti College**. This publication serves as a platform for students to showcase their creativity, reflect on their achievements, and engage with the opportunities that lie ahead.

Our College fosters not just academic excellence but also the holistic growth of each student through various activities and initiatives. I encourage everyone to actively participate in the College's dynamic environment, as it is through such engagement that true learning happens.

Best wishes,

- Fr. Amit Tirkey, Director

St. Vincent Pallotti College completed more than 25 years of journey in the field of quality education. It demonstrates relentless efforts to materialize the holistic development of students. In this process, providing opportunities for exhibiting their skills and penning down students' thoughts occupy important place. It is with immense pride and joy that I extend my warm greetings to all of you as we unveil this edition of our College Newsletter, **The Pallotti Bulletin**. This publication is more than just a collection of articles; it is a reflection of the vibrant spirit, creativity, and intellectual vigor that define our institution.

In these pages, you will find the diverse voices and talents of our students and faculty, showcasing their achievements, perspectives, and dreams. Every story, poem, article and report is nothing but the dedication and passion that our college community embodies.

As we navigate an ever-changing world, I encourage each one of you to continue embracing opportunities for learning, innovation, and growth. Let this Newsletter inspire you to dream bigger, aim higher, and contribute meaningfully to society.

I would like to express my heartfelt gratitude to the College Newsletter Committee headed by Ms. Aanchal Mishra for their tireless efforts in bringing this Newsletter to life. My sincere gratitude to all the contributors for sharing their thoughts and ideas.

- Dr. G. Padma Gouri, Vice Principal

LEADING THE WAY AND INSPIRING THE STUDENTS

Dr. Kuldeep Dubey, Principal of St. Vincent Pallotti College, Raipur (C.G.), is an accomplished academician and innovator. He serves as a **NAAC Assessor** (Peer Team Member), bringing his expertise to quality assurance and have evaluated around several esteemed institutions across India till now. He has also published a patent titled **"IOT-Based Face Reading Device."** Dr. Dubey's visionary leadership and dedication to advancing education and innovation continue to inspire the academic community.

Creativity is an ability we are born with and it is augmented in the education system.

The college newsletter plays an important role in inculcating creativity and also channelizes the building talented writers. It not only helps in encouraging their writing skills by appraisal but also motivates them to read and write much more. As we move ahead to match the advancement of technology and globalization, we endeavor constantly to instill in young minds the ethos of moral values and principles which remained unchanged for ages. While academic excellence is our major thrust, we provide a strong platform for the students to showcase their individual talents. We are creating a future full of optimism and enthusiasm, a future where every endeavor will succeed and ineptitude and disillusionment will be something of the past. We need to equip our students with leadership, critical thinking, communication and technical and creative skills, as it is essential in today's world.

This first edition of college's newsletter of 2024-25 is a rich collection of articles, stories, poems which are not only submitted by the students but their guiding lights. It also contains glimpses of the events conducted throughout the first quarter of the session. We are pleased to present to you the college newsletter of St. Vincent Pallotti College **"The Pallotti Bulletin"**. The space in this newsletter provides freedom to communicate different ideas from each one of us.

We wish everyone happy reading and enrichment to the mind.

- **Ms. Aanchal Mishra**, Convenor, Prospectus & Newsletter Committee

WE AT PALLOTTI COLLEGE

Student Induction Program – Deeksharambh Welcoming New Beginnings with SAGE!

St. Vincent Pallotti College marked the beginning of an enriching academic journey for its newly admitted students with the Student Induction Program, Deeksharambh, held on August 5th. This initiative was designed to provide a structured and engaging transition for students into their new academic environment, aligning with the core principles of SAGE—Socialising, Associating, Governing, and Experiencing.

The event was graced by the esteemed presence of Chief Guest, Shri Purandar Mishra, MLA of the North Assembly of Raipur. The program provided an interactive platform for students to familiarize themselves with the ethos of the institution while also cultivating meaningful peer connections.

A key highlight of Deeksharambh was its focus on acquainting students with the National Education Policy (NEP) 2020. The program aimed to provide clarity on the policy's vision, which emphasizes a multidisciplinary approach, holistic learning, skill development, and innovative pedagogical practices. With its emphasis on inclusivity, engagement, and holistic growth, Deeksharambh set a strong foundation for students, guiding them towards a fulfilling and enriching experience at St. Vincent Pallotti College.

Faculty Development Program

Empowering Minds:

Advancing Research Excellence through Tools, Techniques & Trends!

From September 19th to 25th, 2024, St. Vincent Pallotti College, Raipur hosted a comprehensive Faculty Development Program (FDP) on "Research Methodology: Tools, Techniques, and Trends." This week-long initiative aimed to enhance the research acumen of faculty members by providing in-depth insights into advanced research methodologies, academic writing, publication strategies, and the integration of modern tools like AI and statistical software in scholarly research.

Certificate Course for Students

Empowering students with future-ready skills

St. Vincent Pallotti College, Raipur, hosted a certificate course on AI Tools and Techniques for Academic Excellence, led by Dr. Kapil Gupta, Associate Professor at St. Vincent Pallotti College of Engineering & Technology, Nagpur. The course introduced students to cutting-edge AI applications that can enhance learning, research, and problem-solving capabilities. The course provided invaluable insights into AI's potential to elevate academic performance and drive innovation, equipping participants with practical skills for both their studies and future careers in an increasingly digital world.

Workshop for Students

St. Vincent Pallotti College recently hosted an insightful workshop titled "Protecting Your Creations: Understanding Patents and Copyrights in the Digital Age." The workshop was led by Dr. Minhaj Ahmad A. Rahman, Associate Professor in the Department of Mechanical Engineering at St. Vincent Pallotti College of Engineering and Technology, Nagpur. The session focussed on intellectual property rights, providing students with a comprehensive understanding of patents and copyrights, especially in the context of the digital era aiming to equip participants with essential knowledge on safeguarding their creative work, encouraging innovation while emphasizing the importance of legal protections.

Guest Lecture for Students

St. Vincent Pallotti College recently organized a comprehensive workshop titled "Mastering the Art of Academic Writing: A Guide to Project Reports and Thesis." Dr. Sushant S. Satputaley, Associate Professor and Head of the Mechanical Engineering Department at St. Vincent Pallotti College of Engineering and Technology, Nagpur. The session guided them through the essentials of academic writing, covering the key techniques for structuring, presenting, and refining project reports and theses, providing attendees with practical tools to enhance the clarity and impact of their academic work.

WE AT PALLOTTI COLLEGE

Seminar on Stress & Anxiety Management

Unlocking Mental Wellness: Strategies for Thriving Amidst Stress and Anxiety!

On July 12, 2024, Akashvani, Raipur, organized an important session titled "Stress & Anxiety Management at College Level" at St. Vincent Pallotti College, Raipur. This session was held in the AVA Room at 11:30 AM and aimed to address the critical issue of mental health among students and staff. The importance of mental health cannot be overstated; it significantly influences emotions, thoughts, actions, and interpersonal relationships.

World Conservation Day

एक पेड़ मां के नाम

*Nurturing Nature, Honoring Mothers
A Green Legacy for a Sustainable Future!*

On July 27th, 2024, St. Vincent Pallotti College, Raipur, celebrated World Conservation Day with the theme "Ek Pedh Maa Ke Naam" (One Tree in the Name of Mother) in collaboration with the 'Green Army' Raipur. This event symbolized the nurturing role of both trees and mothers, emphasizing environmental conservation through a meaningful connection to motherhood. The day was marked by the presence of Director, Principal, Vice Principal, Heads of Departments (HODs), faculty members, students from various streams, and members of the Green Army, Raipur (NGO).

78th Independence Day Celebration

United in Pride:

A Spectacular Celebration of India's 78th Independence Day!

On August 15, 2024, our college came alive with a vibrant celebration of India's 78th Independence Day, filled with patriotism and unity. The event was honored by the presence of Rev. Fr. Amit Tirkey SAC, Director of the college, who graced the occasion as the Chief Guest, along with Principal Major Dr. Kuldeep Dubey, Vice Principal Dr. G. Padma Gouri, Heads of various departments, faculty, NCC cadets, and a large gathering of students.

Photography Competition on World Photography Day

When Art Meets the Lens: Capturing Moments, Celebrating Creativity at the World Photography Day Competition!

On August 20, 2024, the Special Days Committee organized a Photography Competition titled "When Art Meets the Lens" in the AVA Room to commemorate World Photography Day. The event was designed to celebrate the art and craft of photography while providing a platform for participants to showcase their talent and creativity. Both amateur and professional photographers were encouraged to participate, making the competition a diverse and engaging experience.

Jane Mishel Orea (M.Com III) secured first position, Megha Verma (B.B.A I) bagged 2nd position, and Roshan Kujur (B.Ed III) secured 3rd position.

Mehendi Competition

Floral Fantasies Unfold:

A Celebration of Art and Culture at the Mehendi Competition!

The Mehendi Competition, organized by the Cultural Committee, provided a vibrant platform for students to express their creativity through intricate floral designs. Held on Saturday, August 24, 2024, in the AV Room, the event was a celebration of talent, cultural diversity, and artistic expression.

Vaishnavi Dhurandhar (MA Sem I) secured first position, Sonali Verma (B.Ed Sem III) secured second position, while Chandra Prabha (B.Ed Sem III) and Susmita Kunwar (BBA Sem V) shared the third position.

Teachers' Day Celebration

Honouring the Guiding Lights:

Celebrating Teachers' Day with Gratitude and Joy!

On September 5, 2024, the college campus of St. Vincent Pallotti College was filled with enthusiasm and warmth as students organised a heartfelt celebration for Teachers' Day. The event, which began at 10:00 AM, brought together all members of the college community to honour and appreciate the dedication, guidance, and hard work of the teachers.

Hindi Diwas

भाषाओं की फुलवारी में हिन्दी भाषा हमारी है

Celebrating Creativity and Pride at the Hindi Diwas Notice Board Decoration Competition!

On September 14, 2024, the Special Days Celebration Committee at St. Vincent Pallotti College, Raipur organized an exciting Inter-Departmental Notice Board Decoration Competition titled "Bhashao ki Phulwari mein Hindi Bhasha Hamari Hai" in honor of Hindi Diwas. The event aimed to promote love and awareness for the Hindi language among students, fostering a sense of pride in their cultural heritage.

The first place was secured by the Management Department and the second place was secured by the Department of Education.

Inter-college Women's Basketball Tournament

Hoops of Glory: Inter-College Women's Basketball Showdown at Pallotti!

On October 5th, St. Vincent Pallotti College, Raipur, hosted an Inter-College Women's Basketball Competition, featuring 8 participating teams. The event selected the Raipur sector team for the state-level contest in Bhatapara on October 18th and 19th. Organised under the Higher Education Department, Government of Chhattisgarh, it underscored the college's commitment to promoting sportsmanship and athletic excellence.

Deepotsav- A Festival of Lights (Diwali Celebration)

St. Vincent Pallotti College, Raipur, celebrated Diwali on 26th October with vibrant festivities, bringing together students and staff to honor the festival of lights. The day featured a colorful Rangoli Competition, with students showcasing their creativity through intricate designs. In the seminar hall, diyas illuminated the space as the college community gathered to share in the joy, unity, and hope of Diwali. Director Rev. Fr. Amit Tirkey and Vice Principal Dr. G. Padma Gouri graced the event, extending heartfelt wishes that resonated with the spirit of peace and togetherness.

A Chat with Mother

Me and my mother, mummy! I called her,
Talking about my future.
Told her my interests and what I really want to do,
What I'm passionate about and what are my talents.
Told her, I can paint,
not very good at singing or dancing,
But I can write, poetry
and novels are the things that excite me.
Recited one of my poems, she listened very calmly,
As she doesn't know very much of the language
so I explained;
It was about two lovers, falling apart.
But from the perspective of the men, how they cover
The storms inside their hearts and souls
And how they pretend, and follow their goals.
After hearing the whole thing, she replied:
I've seen your paintings,
but this is surprisingly new to me.
You used your words instead of your brushes,
Still you painted a beautiful picture for others to see.
The topic you chose is that nobody discusses.
She didn't say, but I saw how proud she was in her eyes,
And we ended our conversation with smiles.

- PIYUSA SINGH, M.A. ENGLISH III SEMESTER

HER

All the benevolence, empathy and compassion is furled up in her veil,
For some these qualities are just unsatisfied luxuries to avail.

She is a shiny sapphire with a personality that's iridescent,
She is as beautiful as the moon in all its facets be it full, gibbous or crescent.

Deep black kohl eyes, her veil lightly brushing the ground,
She used to walk through the boulevard in immense confidence and proud.

She was an ever-blooming rose, they plucked her petals and left her to wilt,
All She ponders now is that "for suffering all this agony was she built?"

Birds of a feather flock together, she heard,
Never had she ever thought that this phrase was dedicated towards her;
They tweak off her wings, tie her legs,
twist her head and shamelessly cage her,
Forcing her to believe that
"it's very unfortunate for her to exist in this cruel world".

The birds from that flock are in too much fear;
"Who would be next, what would happen next?!"

We are living a horrible nightmare!!
-PRIYAM TOPPO, B.COM III YEAR

Navigating Adolescence

- Dr. Pooja Rathi, Head, Dept. of Computer Science

Adolescence is a critical phase of life, marked by significant physical, emotional, and social changes. To navigate this journey successfully, let us consider the following precautions and strategies to stay focused:

Physical Health Precautions

1. Maintain a balanced diet: Eat nutritious food, fruits, and vegetables.
2. Stay hydrated: Drink plenty of water throughout the day.
3. Exercise regularly: Engage in physical activities, sports, or yoga.
4. Get enough sleep: Aim for 8-10 hours of sleep each night.
5. Practice good hygiene: Regularly wash hands, shower, and brush teeth.

Emotional Well-being Precautions

1. Manage stress: Engage in relaxation techniques, such as meditation or deep breathing.
2. Express emotions: Share feelings with trusted friends, family, or a counsellor.
3. Develop self-awareness: Recognize strengths, weaknesses, and emotions.
4. Build resilience: Learn to cope with failures and setbacks.
5. Seek help when needed: Don't hesitate to ask for support.

Social Precautions

1. Surround yourself with positive influences: Choose supportive friends.
2. Set boundaries: Learn to say "no" and prioritize own needs.
3. Practice empathy: Understand and respect others' feelings.
4. Develop healthy relationships: Nurture relationships with family and friends.
5. Be cautious online: Use social media responsibly and safely.

Academic Focus Strategies

1. Set goals: Establish short-term and long-term academic objectives.
2. Create a study schedule: Prioritize tasks and manage time effectively.
3. Seek help when struggling: Ask teachers, classmates, or tutors for support.
4. Stay organized: Keep track of assignments, deadlines, and materials.
5. Develop critical thinking: Analyse information, evaluate sources, and think critically.

Time Management Strategies

1. Prioritize tasks: Focus on important and urgent tasks first.
2. Use a planner or calendar: Stay organized and on track.
3. Set aside downtime: Make time for relaxation and leisure.
4. Avoid procrastination: Break tasks into manageable chunks.
5. Learn to say "no": Set boundaries and avoid overcommitting.

Safety Precautions

1. Be aware of surroundings: Stay vigilant in public places.
2. Practice road safety: Wear seatbelts, follow traffic rules.
3. Avoid substance abuse: Refrain from smoking, drinking, or using drugs.
4. Protect mental health: Recognize signs of depression, anxiety.
5. Seek help in crisis: Contact emergency services or a trusted adult.

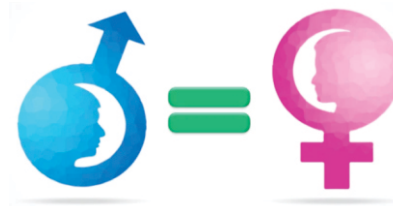

Additional Tips

1. Stay curious: Explore interests, hobbies, and passions.
2. Develop self-discipline: Establish routines and stick to them.
3. Practice gratitude: Reflect on positive experiences and relationships.
4. Seek mentorship: Find guidance from trusted adults or role models.
5. Stay adaptable: Be open to change and new experiences.

By following these precautions and strategies, adolescents can navigate the challenges of this phase effectively, build a strong foundation for their future, and cultivate a healthy, happy, and focused life.

He = She

- Akshadha Mishra
BBA - I

All of us are born with unwritten narratives,
yet society writes predetermined lines
with their motives,
Where boys are told to be strong and valor,
girls are told to be softer and calmer.
But in this world, where all genders roam,
we all are equal under one home,
we need a place where girls are stronger and valor,
and boys to have a soft corner.
Where girls voices are heard as loud
and boys can show emotions to the crowd.
Through demolishing the walls of society's mindset,
we can build a new world
where girls can play cars
and boys can enjoy kitchen set.

In the rapidly evolving landscape of the 21st century, science and technology stand at the forefront of transformative change. From the marvels of artificial intelligence to breakthroughs in quantum computing, advancements in these fields are reshaping our world in unprecedented ways.

The fusion of science and technology has paved the way for innovations that were once considered the realm of science fiction. The advent of smart devices has revolutionized communication, while cutting-edge medical technologies are enhancing our quality of life and extending lifespans. In sectors such as renewable energy, advancements are driving sustainability, offering solutions to some of the most pressing environmental challenges of our time.

Moreover, technology's impact on data science and analytics has enabled more informed decision-making, optimizing everything from business operations to public health strategies. As we continue to harness these advancements, the potential for future progress is boundless. The synergy between science and technology not only fuels economic growth but also fosters a more connected and intelligent global community.

In conclusion, the ongoing advancements in science and technology are not just changing the way we live but are also redefining the possibilities of tomorrow. Embracing these innovations is key to navigating and shaping a future filled with promise and potential.

BBA - III SEMESTER

Discovering Myself in Knowledge's Embrace

In the intricate dance of education, there exists a sacred partnership, where a curious mind meets the guidance of a nurturing soul. This poem is a tribute to that beautiful relationship - a connection that transcends the classroom and touches the very essence of our learning experience. Through this journey, we witness the unquenchable thirst for knowledge within a child and the selfless dedication of a teacher who illuminates the path of discovery. The bond between them is more than just instructional; it is emotional, transformative, and deeply impactful. It is in this embrace of knowledge that a child discovers not just the world, but also themselves.

Discovering Myself in Knowledge's Embrace

In a world of wonder, a curious child's delight,
Eyes wide with questions, sparkling in the light.
A seeker of knowledge, a heart so pure,
Embarking on a journey, eager to endure.

In the classroom's embrace, a haven of dreams,
A teacher, a guide, like a gentle stream.
A nurturing presence, patient and kind,
Igniting the flame of the inquisitive mind.

Through books and through stories,
the lessons unfold,
A tapestry of wisdom, a treasure to hold.
In the dance of ideas, like butterflies in the air,
The child and the teacher, a magical pair.

With chalk in hand and a heart so wide,
The teacher paints lessons, a mentor with pride.
Each query a seed, planted with care,
In the fertile soil of the child's heart to bear.

In the world of discovery, hand in hand they roam,
Exploring the universe, making a second home.
With laughter and learning, a symphony so sweet,
The classroom echoes with joy and heartbeat.

Oh, the bond that blossoms, so tender, so deep,
A connection that words alone cannot keep.
For in the curious child, a universe unfurls,
And within the teacher, the guide of little pearls.

Through trials and triumphs, they stride side by side,
The teacher, the beacon, in wisdom they bide.
In the heart of the child, a flame brightly burned,
A love for learning, forever returned.

So here's to the journey, the lessons, the grace,
The curious child and the teacher's embrace.
In the symphony of learning, a melody so sweet,
A tale of connection, where hearts and minds meet.

May this poem remind us all of the powerful, lasting
impact of a teacher's love and guidance, as it shapes
not only minds but also hearts.

B.Ed. III SEMESTER

Green Technology: The Path to a Sustainable Future

Over the years, people have begun experiencing problems as regards their health and the environment, and in all these circumstances, the demand for conventional resources keeps increasing. Envisioning a future where there is not enough to go around for generations to come is not only scary but also a preventive measure that encourages the use of green technology and its many benefits.

Green Technology: Green-Tech is the use of science and technology to develop eco-friendly products and services that protect our environment. It includes renewable energy, sustainable transportation, waste management and recycling, and energy efficiency solutions, all helping us move towards a more sustainable future. Some examples of Green Technology include:

Advances in solar power, wind energy, and hydroelectric power are making it increasingly feasible to transition away from fossil fuels. Electric vehicles are a more environmentally friendly alternative to fossil fuels. Sustainable agriculture is a way to protect ecosystems and endangered species. Carbon capture and storage is a technology that removes carbon from the atmosphere and uses it to make synthetic fuel. Biogas is a fuel produced from the

breakdown of organic matter that can be used to power motor vehicles. Green architecture is a construction method that uses natural light and insulation to reduce energy usage. Green IT is the implementation of technologies and practices that reduce the environmental impact of the information technology sector, such as energy-efficient computers and data centers.

Modern green technologies are changing the manner in which society tackles environmental issues by providing new creativity that promotes sustainability and minimizes impact on the environment. As technologies develop and their use spreads, their more widespread application is capable of resulting in a further considerable beneficial change across all sectors and societies. The extreme changes in the design, development, and use of all these technologies will not only combat climate change but also enhance the chances of survival and well-being of future generations.

- **Mrs. Neha Sahu**, Assistant Professor
Department of Computer Science

SAVING WATER

*"Preserve water, preserve life
Save Water, Water is life."*

On this earth everyone needs water for the survival. Everyone is dependent on water to exist. Clean and safe water is very important for all living organism to live long and healthy.

Saving Water: As we know that Earth contains a lot of water, but then only one percent of water is fresh. And in daily living we need a large amount of water to use. The demand of fresh water is growing day by day in human life. It is seemed that in future the fresh water demand will be very much essential for the entire living organism.

The water which we use must be utilized carefully. We must avoid to waste water. We must save water in whatever way possible. We store water at home to drink and it must be store cleanly. We must use water carefully when we brush and take shower. We must close the tap when we don't use them. Likewise, if taps or water pipes are leaking, we must repair them in a right way. The water used for cleaning and mopping can be reused for watering our gardens at home.

In conclusion, I would like to say that it is our responsibility to protect water. It is our primary duty to save water, for WATER is a finite resource. If it is not saved properly today, it will result in acute scarcity in the future. Let us together save water for the preservation of human life and other life forms on Earth.
